Project Omega

In a world where “thought police” loom over American tech platforms, a shift in tone occurs when the subject of the Chinese Communist Party enters the discourse on Capitol Hill.

We find ourselves at the precipice of what can only be described as a quasi-cold war between the United States and China, as the latter seeks to assert its dominance as the global tech leader.

While the United States grapples with internal censorship disagreements, legendary tech titan Marc Andreessen has publicly stated, “We should seek to win

the race to global technological superiority and ensure that China does not.”

Now imagine the unsettling possibility of Chinese totalitarian surveillance across every corner of the globe.

As Andreessen has documented, China’s vision is already taking shape as they continue to extend their influence over 5G networks, the Belt and Road Initiative, and consumer apps like TikTok.

In the face of this mounting threat, the United States must commit to the ideals of liberty and capitalism, to drive our technological innovation forward and preserve the nations hard-earned global standing.

Enter Eric Fry, known as one of America’s top traders, who is sounding an urgent alarm regarding a monumental \$15.4 trillion undertaking dubbed ”Project Omega”.

This ambitious endeavor brings together tech icons, including Elon Musk and Peter Thiel and a select group of Silicon Valley insiders, all united to help safeguard our technological superiority.

“Project Omega” isn’t a pipe dream; it is already expanding 42-times faster than the internet with unparalleled potential to mint a new swath of millionaires and billionaires.

Even Forbes says it’s about to unleash “the greatest profit engine in history.”

Remarkably, “Project Omega” is in its infancy and is already creating revenue opportunities that could uplift American workers onto a well-deserved life of financial freedom.

ELON MUSK'S PROJECT OMEGA

<https://www.bitchute.com/video/8wgQTZxzEKcF/>

Note:

Personally Project Omega is the Endgame and the last post of their long standing plan that I write about for years.

It is the desire of the few to play God over the many.

That includes the recent destruction of Hawai and the never ending war in Ukraine.

I will do as best as I can to derail their game and explain the mechanics of their doing.

"I am the Alpha and the Omega, the First and the Last, the Beginning and the End."

Who really is Elon Musk?

Sold to us as the Messiah... Jesus of the EV world which by the way kills more children than the Catholic Church and defender of Free speech... if you agree with the I-Robot world of automated bots on the side formally known as twitter.

Personally I don't buy it, and that is for a very good reason.

In 2008 I patented what is to this day the most advanced Transportation System in the world by a quantum leap... better would only be instant travel and this is impossible.

In 2009 both NASA and SPACEX spend considerable time on my website.

In 2013 Elon Musk came about with a blatant copy of my Invention called it the Hyperloop and that's it.

What is worse, Elon did not create a company as he always does but made a kind of "Competition" suggesting a Vacuum tube with parts of Maglev and my technology.

He had to do this for legal reasons so I could not sue him for patent infringement.

The aim was to create a Hyperloop competition but not to create a new Transport System and to involve as many people possible and to occupy them. The aim was to distract people from the possibilities of my invention... and it

worked.

Who would you rather believe?

A Billionaire or someone you never heard of?

You been fooled chewed up swallowed whole spat out and shat on.

Elon Schmuck is a clever little bastard.

But because he did that... taking from me what is rightfully mine... Elon Musk is just a little thief.

A second hand car salesman who sold his soul to the devil.

The Hyperloop is my invention only worse but that gives me the right to speak up as I do.

Sue me Elon... I be waiting.

Let's delve into Elon Schmuck's questionable rise... shall we?

His first "Venture" was Zip2... something that also never was.

This is the first clue on who Elon Musk really is... a rich born playboy at best... a satanic controlled puppet or a demonically possessed genocidal maniac... you decide.

I believe the 300 mil Dollar Compuserve splashed out wasn't for this "Software" but for his future services to the satanic Mafia currently causing all the trouble.

But Elon Musk isn't the only soulless person that sold their soul to the Devil...

Bill Gates... Oprah... Mark Zuckerberg... Pater Thiel... Jeff Bezos, they all walk without Soul for they have none.

Empty shells they are pretending they are Human which clearly they are not.

AI the Machine Learning God

FRITZ FREUD • OCTOBER 31, 2022

Elon Musk & the Elite's Plan to control Humanity

Neural lace

Neural lace is a brain-computer interface (BCI) and It consists of Graphene Oxide / Trioxide self assembling Nanoparticles that are able to register, record and program your Brainwaves. It is currently deployed through the fake Vxx Jobs.

NEURAL LINK

NEURAL LINK translates and amplifies the Brainwaves and is a Chip inside your head.

STARLINK

NEURAL LINK then sends this Data to STARLINK which are 44,000 (+++) Satellites in low orbit strategically placed around the Globe turning the earth into a low orbit microwave beaming down not only a 5G network that is controlled from one strategic point by a handful of people. It also has the capability for sending Information at the Schuman Resonance which is your Brainwave Frequency.

Open AI (The Machine learning God)

Once every Human is connected through this the Human Race basically feeds this AI. It will consist of a machine learning God so to speak that controls all actions of all humanity. The Artificial Intelligence MCP (Master Control Program) then can Identify you, your thoughts, movement even emotions as it learns from the Human Race which it sees as its subjects through BCI and the Internet of Bodies via AI control with infinite machine learning capabilities.

Boston Dynamics / Tesla Robotics (Your Terminator Police)

The AI then will be given the control over robots that act as the executive branch of this Open AI. STARLINK provides the bandwidth to control Humanity in real time.

SpaceX

SpaceX is the deliver Module for Starlink and can deliver more Satellites at any given time

Boring

The Boring Company has the capability to build and connect Underground Cities in which the Elite Will then escape the destruction of the world which is of their making. From their Underground Cities they then want to control all of Humanity.

Hyperloop

Hyperloop is designed to connect those Underground cities with an Underground Rail Network

AI. What do you know about that? Nothing I would suggest. Most people do not even understand Computers least of all themselves. So if you do not understand your own Intelligence how would you understand AI? You would and could not... Impossible. Most people live the easy way out... they do what they been told in order to live the way of least resistance.

The recent fires in Maui Hawaii are a product of their making and STARLINK I believe is a central figure in this episode of destruction.

Because STARLINK has all the attributes needed to create those fires.

Many people will tell you that STARLINK is just beaming Internet down for the "poor"... what a yoke.

The Technology of STARLINK is 5G.

5G by design is a directed Energy Weapon combining the output of many antenna's into one target.

So even is one Satellite isn't harmful, 1000 concentrated on one spot are.

And just to get this straight... nobody really knows what is inside these "Satellites".

But there are things we know.

One thing is for sure and that is this:

Starlink & the Technomages

FRITZ FREUD • JULY 28, 2022

manufacturers will ensure we keep going to war. The media will ensure we are prevented from knowing the truth. The Government will ensure all of this is done legally."

Technomage The Technomages are a group of sentient beings from the fictional Babylon 5 universe. The technomages shown in the television series are primarily human, but in the "Technomage Trilogy" books, apprentices and mages of other races including Centauri are named.

The Governments had for years the plans for a "Death Ray" given to them by Nikola Tesla.

I surely believe that the "Star Wars" of Ronald Reagan was the first plan of creating this weapon.

Nikola Tesla hated the idea of war and designed his death ray in the hopes that he could completely eliminate warfare.

Imagine a beam of energy that could bring down planes from miles away with nothing but electricity. Imagine an invisible wall of energy protecting a country from invasion, acting as an electric fence that could vaporize enemy soldiers the second they step foot inside.

Sounds like something most militaries would love to get their hands on, doesn't it?

The dream of this kind of “death ray” has inspired weapons developers for decades.

But one brilliant inventor, Nikola Tesla, claimed to have actually created one. STARLINK is in my opinion exactly this.

Disguised as Internet which it can provide, STARLINK is so much more than this.

The STARLINK Satellites are directional and can be focused onto one point multiplying the output by infinity.

They can be used to start Fires such as those in Hawaii and even to destroy Buildings.

It all depends on the concentrated power output.

And the concentrated power output is infinite.

I surely believe the wildfires in Hawaii were used to test the capabilities of STARLINK.

And I surely believe that this is part of Project Omega.

What is more is this: The war in Ukraine is also a testbed for Project Omega.

And STARLINK is the central spine of this.

Project Omega: Total control of Humanity via AI

Project Omega is about bringing states and counties the most powerful address matching, voter roll cleaning system available – Medicaid fraud detection – at a cost so low anyone can afford it.

We are the Omega4America team delivering massively disruptive, REAL TIME technology to solve state government identity fraud problems no current technology can economically address.

Omega delivers:

- 1. Real time views of ALL state government rolls, from a digital device.*
- 2. Time series analysis of multiple copies of voter rolls and other government rolls – to see what changed = 100% audit ability.*

3. *The Undeliverable Ballot Database™*– the most accurate database of every address – determining if it can receive a ballot or not.
4. Comparison of voter list addresses with property tax records to identify ineligible voters in voter rolls.
5. FEC address cross search – identifying contribution mules for law enforcement.
6. Medicaid, Payroll Protection Program or any other government program fraud identification.
7. Omega can stand up any state system in 30 – 45 days – at a cost 1/10th of traditional technology.

The Omega team will build a demonstration system for any state where its officials are seriously looking to update voter systems, search out program fraud or reconcile multiple systems and databases.

Read between the lines here:

Guilty until proven guilty... this is really what Project Omega is all about.

It is Government by AI.

All of this under the tutelage of Bill Gates Elon Musk Oprah and so on...

It is the Rich vs the poor and the poor won't be asked.

America's Top Trader – who predicted the dot.com bust, the rise of bitcoin and last year's tech wreck exposes... Elon Musk's 'Project Omega

On August 23, a shocking turn of events will trigger a \$3 trillion AI panic in the market.

It could soon mint new millionaires, while plunging millions of unprepared Americans into poverty.

“In Downtown San Fransisco a few years ago, Elon Musk and a couple of other billionaires launched what I’m calling ‘Project Omega’...

“A project that’s soon guaranteed to affect every aspect of your life.”

<https://www.stockgumshoe.com/reviews/frys-investment-report/answers-picks-from-elon-musks-project-omega-tease/>

NOTE:

The stocks he is referring to are Alphabet (Google, YouTube) Intel and Amazon. And I believe XAI also because it will run this.

Also it is supported by Bill Gates.

So we have Elon Musk Peter Thiel Jeff Bezos and Bill Gates working together. And since all of them are working for the Government DARPA and CIA we have an absolute concentration of power every dictator dreams of in their wettest dreams.

Whenever we have such a concentration of power especially without telling us we can and must assume nefarious reasons for not telling us.

This is what the media has NOT been reporting on.

But it’s why tech stocks like Tesla, Microsoft, Nvidia have been up as much as 133%, 138%, and 184%, respectively.

What’s building right now in the AI space is pointing towards a \$3 trillion panic that is about to erupt.

This is what Eric Fry has been reporting on.

When we look closer and we see that NVIDIA INTEL and other Chip Manufacturers work together with AI, we must take a closer look at their products.

And we find that every Computer Chip has now AI cores implemented.

Which means that as part of project Omega every device that connects to the IOT will now be your own personal spy.

Every action you do will be controlled in real time and there is nothing you can

do about it.

AI will be your own personal Gestapo... thanks to the above.

But there is more...

The Government is involved meaning this is military technology for a military purpose.

And the purpose of Governments is to control its people.

Elon Musk has already supplied the Ukraine Military with Starlink Technology.

He was supported by the US Government France and Poland in this.

STARLINK was first used to sink the Moskwa... an act of war by the US and Elon Musk.

As I said... Ukraine is a testbed for this coming AI war.

And this AI war is coming for sure very, very soon.

And at the center of this is Elon Musk.

Elon Musk and the World War in Ukraine

FRITZ FREUD • APRIL 20, 2022

I heard a very disturbing rumor and I checked it out... The rumor comes from India and it concerned the sinking of the Moskva. The rumor was that the Moskva was sunk with the help of Elon Musk Starlink Network. Mychajlo Fedorow himself asked Elon Musk for help in the war in Ukraine something Elon Musk was eager to please.

At the behest of the German government, Rheinmetall is supplying Ukraine with automated reconnaissance systems. These are primarily used for monitoring large areas of terrain with as few personnel as possible. Rheinmetall is cooperating in this project with the Estonian company DefSecIntel. Known as the SurveilSPIRE, these reconnaissance systems consist of mobile surveillance towers with day and night-capable camera equipment, autopiloted mini drones and a control system. The scope of delivery also includes transport vehicles. The order is worth a figure in the double-digit million-euro range. Delivery has already commenced.

Made by Estonia's DefSecIntel, the SurveilSPIRE surveillance towers can be loaded onto trailers and quickly transported to their area of operation. Assembly requires three personnel; operation is fully automated. The system includes wireless links (4G and Starlink) for video transmission to a mobile command post. Solar panels enable sustained operation without power cables or a fuel source. The system relies on autopiloted reconnaissance drones that conduct patrols and mission-specific flights. This enables inspection of detected threats and lets the operator initiate necessary countermeasures.

Rheinmetall is already taking part in several projects in support of Ukraine. On behalf of the German government, for example, Rheinmetall subsidiary Zeppelin Mobile Systeme GmbH is supplying Ukraine this year with a turnkey field hospital. Moreover, along with other defence materiel to help it repel the Russian invasion, Ukraine is taking delivery of 26 brand new high-mobility HX swap-body trucks.

SurveilSPIRE - Key #German surveillance system transferred to #Ukraine !

SurveilSPIRE is basically the link to STARLINK.

It is a system that is capable of fully automated operation which includes automated drones.

Now imagine one of those operating inside an automated self driving Truck.

Furthermore this system can be upscaled.

And it also can be remotely controlled via STARLINK.

But this is by far not all and not the worst.

SurveilSPIRE is the ground link to STARLINK.

The Command and control center.

Then we have these:

Skynex, Skyranger, Skyguard, Skyshield, and Millennium Gun and they compliment each other to provide the militaries with a powerful resistance against the enemy.

GERMAN Fastest Air Defense Systems SHOCKED The World!

So what do we get out of these?

First of all a fully automated autonomously operating Combat System that reports back via STARLINK to anywhere.

But as it stands... to AI.

Then we have the compartmentalization of such weaponry and the build of them at different locations.

This is to ensure that nobody gets the real purpose of their actions.

Which in reality is total control over the Human race.

And as such ISRAEL also plays it's not insignificant part.

This is how such a Command and Control Center looks from the inside.

Yet there is more...

With all this AI Infrastructure in place AI Government and so on...

We need an AI police securing our streets because there are too many Humans demanding Human rights food and so on...

And Humans stink... so tells us Yuval Harari who likes it up his stinker the skunk.

Who will produce this Police force?

Tesla!

Elon Musk.

Tesla Bot Update

The Gigafactories are already tooled to deliver AI robots and soon they will be ready.

The whole game reminds me of when Adolf Hitler built the German Autobahn. The purpose was there and then to maneuver German Tanks to the Front. Now the Front is everywhere.

Is Elon Musk like Adolf Hitler?

No, he is worse.

He is Damian from the Omen bringing us the Apocalypse as prophesized by his Masters.

The "Elite" who bring us all this death and destruction they already bought New Zealand Hawaii live in Martha's Vineyard and other places where we are not welcome.

This is the AI war.

This is Project Omega.

It is the end for Humanity as we know it.

And all the players are fooled... and Humanity is Hoodwinked to oblivion.

Motörhead – Eat The Rich (Official Video)

Addendum:

With the Technology as it stands and as projected by the WEF Elon Musk and the world Government we face now this problem:

A self driving Autonomous Station connecting to STARLINK can be deployed into any region establishing a perimeter of Influence anywhere in this world. With so called AI “Search and destroy” Software which is already established such a system which at the moment is in its infant stages poses the greatest and gravest danger to Humanity that ever has been.

The players in this who are making this happen must be arrested Immediately. This is beyond Evil.

If we allow such a system to be completed and to become Operational it will be the end of Humanity and the end of this planet as we know it.

And we will be dead.

There is nothing... I stress ABSOLUTELY NOTHING in such a system that benefits Humanity in any way.

We are speaking here of High Treason by Elon Musk Bill Gates the WEF and

everyone involved.

It is a declaration of War against Humanity.

A war that cannot be won.

Godspeed
